

STANDARD OPERATING PROCEDURE
ELI LILLY AND COMPANY
North American Logistics Operations

Maintaining and Providing Consumer Product Safety Improvement Act (CPSIA) Certificate of Compliance

USD-SOP-CPSIA Cert of Compliance-082

PURPOSE	To provide guidance for maintaining the Lilly Consumer Product Safety Improvement Act (CPSIA) Certificates of Compliance and providing associated supplemental batch specific information upon request from consumers.
----------------	--

AREAS INVOLVED	North American Shared Service Center – Customer Service (NASSC-CS), NALO Quality Assurance QualityDocs Coordinators
-----------------------	--

APPROVALS	Approval of this procedure requires the signatures of: Management, NASSC-CS Management, NALO Quality Assurance
------------------	--

REASONS FOR REVISION	All revisions are marked with an (*) To change NALO personnel to NASSC-CS personnel in the introduction of the Processing Requests for CPSIA Certificate of Compliance section. • Rationale: For clarification.
-----------------------------	--

-------------------	--

INTRODUCTION Certificates of Compliance (or “Certificates”) are required by Sections 14a and 14g of the Consumer Product Safety Act (CPSA) and the Consumer Product Safety Improvement Act (CPSIA) which amended Section 14a. These certificates are available on the LillyTrade.com website and provide general product information as well as documentation of child-resistant testing as required by the Poison Prevention Packaging Act {16 CFR §§ 1700.14(a) and 1700.15} for all Lilly drug products subject to these rules. The Certificates of Compliance are presented by product family and packaging configuration.

The law requires the US Manufacturer (defined as any person who manufactures or imports a consumer product) and/or the Private Labeler of a product certify the product under CPSA before the product is introduced into domestic commerce. If the manufacturer (or importer) is not Lilly, Lilly is obligated to obtain a copy of that certificate for our files and a contact number to which customer calls can be forwarded to obtain a copy of the current certificate. This contact information is available to the distribution personnel who receive requests for CPSC-Mandated Certificates of Compliance. See the Maintaining Non-Lilly CPSIA Certificates of Compliance section of this procedure.

When a new product subject to the CPSA and CPSIA rules is packaged by Lilly or one of Lilly's contract packagers on behalf of Lilly, the MHS Trade and Specialty/Channel Mgmt Team will request a Certificate of Compliance from Lilly Packaging Engineering and Development where these documents are developed. This is completed as part of the NALO Launch process as stated in the attachment for USD-SOP-Domestic Launch Coord-016.

Ensure the customer wants a Certificate of Compliance for the Consumer Product Safety Act (regulated by the Consumer Product Safety Commission), not a Certificate of Conformance that is created by Manufacturing. The manufacturing COC (Certificate of Conformance) is a written certification of conformance to quality standards or specifications for products or materials containing at least the following information: Name of product or material; batch number; date of release; expiration or retest date as applicable; list of each test performed in accordance with compendia or customer requirements, including the acceptance limits, and the analytical results obtained; date and signature of authorized personnel of the quality unit(s). If there is any confusion about which certificate the customer needs, please contact a member of NALO Quality Assurance. Manufacturing Certificates of Conformance can be obtained from Manufacturing with the help of the inventory coordinators in North American Shared Service Center (NASSC).

The CPSC-Mandated Certificates of Compliance with the Poison Prevention Packaging Act are comprised of one page and may be accompanied by a supplemental page with batch specific information, if requested.

- a. Page 1 is the Certificate of Compliance based on the NDC provided by the customer. This can be obtained from the LillyTrade.com website.
- b. Page 2 is provided only upon specific request: It is a supplemental page containing supplemental batch documentation that specifies packaging location and packaging date for the batch.

Certification testing data is the same for each batch within a product family and packaging configuration. As a result, batch-specific data will be the same for each batch within a product family and packaging configuration.

Note: For ease of use and revision, Attachment A, Supplemental Batch Specific Information resides in the Electronic Document Management system (USD-SOP-CPSIA Cert of Compliance-082 Attachment A).

**PROCESSING
REQUESTS
FOR CPSIA
CERTIFICATE
OF
COMPLIANCE**

Upon request for a CPSIA Certificate of Compliance, *NASSC-CS personnel follow these steps. See the Processing Requests for Supplemental Batch Specific Documentation section if supplemental batch specific documentation is requested. If the Certificate being requested is for a *non-Lilly* product that Lilly distributes, provide the customer with the contact information for the company responsible for providing the CPSIA certificate. This contact information can be found on the NASSC-CS collaboration space, under "Contacts"

Step	Action
1	Go to the LillyTrade.com website.
2	Using the NDC Code provided by the customer, find and print the corresponding Certificate of Compliance.
3	Send a hard copy and/or a scanned copy of the appropriate Certificate of Compliance from the LillyTrade.com website to customer. If requested, also send the Supplemental Batch Specific Information (see the Processing Requests for Supplemental Batch Specific Documentation section of this procedure).

**PROCESSING
REQUESTS FOR
SUPPLEMENTAL
BATCH SPECIFIC
DOCUMENTATION**

Upon request for supplemental batch specific documentation in addition to the basic Certificate of Compliance, NALO personnel follow these steps:

Step	Action
1	Ask the customer for the following information and record on Attachment A, Supplemental Batch Specific Information form: • Product NDC and the specific batch number for which they require information. Do not provide them with a batch number. • Customer Contact Information (name, phone #, personal title and company, if applicable) • Customer Address or email to send information.
2	Access SAP to determine the site and date of packaging for that particular batch as follows: • Enter transaction BMBC • Enter Batch in Batch field (yellow) • Click Execute • Expand material in left section of page to reveal Batch • Double click on BATCH • Click on "CLASSIFICATIONS" TAB • See "packaging site" • Click drop down - enter code found in "Vendor" • See result • Click "DATE" TAB to find date

Step	Action						
3	Determine: <table border="1"> <thead> <tr> <th data-bbox="358 499 776 531">If</th><th data-bbox="776 499 1409 531">Then</th></tr> </thead> <tbody> <tr> <td data-bbox="358 531 776 1077">The batch cannot be found in SAP, or the batch number does not match the product NDC provided,</td><td data-bbox="776 531 1409 1077"> Ask the customer to repeat the NDC and/or batch number for verification. If the batch number still cannot be found in SAP or does not match the NDC: 1. Mark 'No' on the 'Batch/NDC ID Valid' line on Attachment A, Supplemental Batch Specific Information 2. Complete the 'Prepared by' and 'Customer-Supplied Information' sections on Attachment A 3. Forward the customer call to Lilly's call center (e.g., TLAC) to report the invalid batch number and or NDC as this may be counterfeit product. DO NOT send the document to the customer. Notify NALO QA who will proceed for investigation of counterfeit per USD-SOP-Facility State Licensing-039. Retain document as in Step 4 below, but DO NOT send to customer. </td></tr> <tr> <td data-bbox="358 1077 776 1476">If the batch number IS found in SAP for the product NDC,</td><td data-bbox="776 1077 1409 1476"> Complete Attachment A, Supplemental Batch Specific Information as follows: 1. Mark 'Yes' on the 'Batch/NDC ID Valid' line 2. Batch number 3. Site of packaging and date of packaging for that particular batch 4. Sign and date Attachment A 5. Obtain second person verification of the information (must be a different person than the preparer who can access the SAP information themselves) 6. Contact a member of NALO Quality Assurance with any questions. </td></tr> </tbody> </table>	If	Then	The batch cannot be found in SAP, or the batch number does not match the product NDC provided,	Ask the customer to repeat the NDC and/or batch number for verification. If the batch number still cannot be found in SAP or does not match the NDC: 1. Mark 'No' on the 'Batch/NDC ID Valid' line on Attachment A, Supplemental Batch Specific Information 2. Complete the 'Prepared by' and 'Customer-Supplied Information' sections on Attachment A 3. Forward the customer call to Lilly's call center (e.g., TLAC) to report the invalid batch number and or NDC as this may be counterfeit product. DO NOT send the document to the customer. Notify NALO QA who will proceed for investigation of counterfeit per USD-SOP-Facility State Licensing-039. Retain document as in Step 4 below, but DO NOT send to customer.	If the batch number IS found in SAP for the product NDC,	Complete Attachment A, Supplemental Batch Specific Information as follows: 1. Mark 'Yes' on the 'Batch/NDC ID Valid' line 2. Batch number 3. Site of packaging and date of packaging for that particular batch 4. Sign and date Attachment A 5. Obtain second person verification of the information (must be a different person than the preparer who can access the SAP information themselves) 6. Contact a member of NALO Quality Assurance with any questions.
If	Then						
The batch cannot be found in SAP, or the batch number does not match the product NDC provided,	Ask the customer to repeat the NDC and/or batch number for verification. If the batch number still cannot be found in SAP or does not match the NDC: 1. Mark 'No' on the 'Batch/NDC ID Valid' line on Attachment A, Supplemental Batch Specific Information 2. Complete the 'Prepared by' and 'Customer-Supplied Information' sections on Attachment A 3. Forward the customer call to Lilly's call center (e.g., TLAC) to report the invalid batch number and or NDC as this may be counterfeit product. DO NOT send the document to the customer. Notify NALO QA who will proceed for investigation of counterfeit per USD-SOP-Facility State Licensing-039. Retain document as in Step 4 below, but DO NOT send to customer.						
If the batch number IS found in SAP for the product NDC,	Complete Attachment A, Supplemental Batch Specific Information as follows: 1. Mark 'Yes' on the 'Batch/NDC ID Valid' line 2. Batch number 3. Site of packaging and date of packaging for that particular batch 4. Sign and date Attachment A 5. Obtain second person verification of the information (must be a different person than the preparer who can access the SAP information themselves) 6. Contact a member of NALO Quality Assurance with any questions.						
4	Send a hard copy and/or a scanned copy of the appropriate Certificate of Compliance from the LillyTrade.com website to customer AND the completed supplemental batch documentation (Attachment A). Keep a copy of the supplemental batch specific documentation, file in the CPSIA file cabinet located in the NASSC-CS area's central filing cabinets and retain in accordance with the Global Records Retention Schedule.						

**MAINTAINING
CPSIA
CERTIFICATES
OF COMPLIANCE**

Upon request from the Packaging Engineering and Technology group that a new or revised CPSC-Mandated Certificate of Compliance is available, the NALO QA QualityDocs Coordinator uploads the document into QualityDocs:

Step	Action
1	Check out the current document in QualityDocs.
2	Check in the new or revised document provided by Packaging Engineering and Technology group. Ensure that the footer of the document does not change UNLESS the template of the document changes. If only the content changes, there is no change needed to the footer. If there are questions, check with MHS.
3	Schedule the reviewer(s) and approver(s) that Packaging Engineering and Technology recommends (typically Consultant Engineer, Global Packaging Tech and Development; Sr. Director, Global Packaging; and Manager, IDAP Packaging QA).
4	Once approved, send a pdf copy of the PowerPoint document without the signature page from the electronic data management system to the MHS Trade and Specialty/Channel Mgmt Team who will have their IDS group upload it to the LillyTrade.com website.

**MAINTAINING
NON-LILLY CPSIA
CERTIFICATES
OF COMPLIANCE**

Upon receipt from the Product Launch team or other group of a new or revised CPSC-Mandated Certificate of Compliance (CoC) and contact information for a non-Lilly product, the NALO QA QualityDocs Coordinator will:

Step	Action
1	Scan the document and the contact information and place the hardcopy in the GMP Library filed by CPSIA/product name.
2	Migrate a copy of the scanned document and contact information into QualityDocs by either checking out an existing document or routing the new document for approval.
3	Place on a single approval workflow to migrate the approved document into QualityDocs. NALO QA Coordinator is the only approval for documents which are already approved upon receipt. Note: These CoC documents for non-Lilly products are only the initial documentation and are not maintained as current. Initial documentation represents Lilly's due diligence to ensure the product owner is in compliance with CPSIA requirements.
